Envisors Approved to Conduct Petroleum Assessment and Remediation Services

WINTER HAVEN, FLORIDA, September 4, 2009

Envisors has been approved by the Federal Department of Environmental Protection (FDEP) agency to conduct petroleum assessment and remediation for State-funded sites in the Florida Department of Environmental Protection Preapproval Petroleum Cleanup Program. Envisors' staff has extensive assessment, pilot testing, remedial action plan, and implementation experience. This certification will now enable Envisors to perform this work as a qualified contractor in FDEP's Preapproval Program.

About Envisors

Established in Polk County in 1975, Envisors (engineering advisors) is a civil engineering firm providing survey, urban planning, land development, transportation, municipal engineering, and construction administration services to clients throughout central Florida. Dedicated to delivering economical, practical solutions to complex problems, Envisors serves private clients as well as many municipal, county, and other governmental organizations. Specializing in consulting, site/civil, environmental, water resources, and transportation engineering, Envisors demonstrates expertise in water supply, potable and reclaimed water, wastewater, stormwater, roadways, and land development projects, from preliminary studies through construction certification.

For more information about Envisors or the services they provide, visit www.envisors.com. If you have questions about this release or would like to request additional information, please contact Kristi Ogaz at (863) 324-1112 or via email at kogaz@envisors.com.
